Sondos Al Debajah Medical Industry (SDMI)

BUILDING A WORLD-CLASS NATIONAL MEDICAL INDUSTRY

PRODUCTS CATALOG 2025

Welcome

Welcome to the world of Sondos Al Debajah Medical Industry (SDMI).

We are proud to be part of the Kingdom of Saudi Arabia's healthcare transformation journey, driven by innovation, quality, and a strong commitment to self-sufficiency.

Since our establishment in 2018, we have been dedicated to producing high-quality medical products that support hospitals, healthcare providers, and ultimately the well-being of patients. Today, as we expand into sterile medical supplies and advanced production technologies, SDMI continues to stand as a trusted partner in building a healthier future.

At SDMI, we believe that excellence in medical manufacturing is not just about products it is about trust, sustainability, and our shared vision for tomorrow.

MEDICAL PACKS

Sterilization Products

SDMI provides high-quality sterilization rolls and pouches designed to ensure maximum protection, clear visibility, and reliability during sterilization processes. Our sterilization products meet international standards, offering secure, durable, and user-friendly solutions.

1. Sterilization Roll

PRODUCT FEATURES:

- Heat-sealing sterilization reel.
- Width: 5cm to 60cm, Length: 100m or 200m.
- Available Colors: Blue / Green / Transparent.
- Sterilization Method: Steam - EO.
- Flat type suitable for almost all lightweight instruments & sets.
- Constructed from medical grade paper + PET/PP multi-layer copolymer film.
- Water-based, non-toxic process indicators for steam & EO sterilization.
- Sterile and easy to tear – no sticky paper or scraps after sterilization.
- Triple explosion-proof edges prevent cracking.
- Clear color change indicators to confirm sterilization.
- Transparent film allows content visibility.
- High-grade imported paper with strong bacterial resistance.
- Long storage life up to 180 days without opening under normal conditions (15-25 °C, humidity <70%).

2. Sterilization Pouch (Standard – Self Seal)

PRODUCT FEATURES:

- Available with Steam, EO, and H2O2 indicators.
- Water-based, non-toxic process indicators.
- Indicators imprinted on paper surface (no contamination of instruments).
- Effective barrier against germs & bacteria.
- Allows transmission of air, steam, and sterilization gas.
- Reinforced film avoids tearing during opening.
- Peel-easy separation: film detaches cleanly from paper with no fibers/shatters.
- Clean & accurate color change indicators.
- Triple band seal for strong package integrity.
- Aseptic presentation ensured with fibre-free opening.

Our Facilities

Our production facilities are equipped with advanced automated machinery to ensure precision and compliance with global medical standards.

Production Flow

Fabric → Cutting → Sewing/Welding → Sterilization → Packaging → Distribution

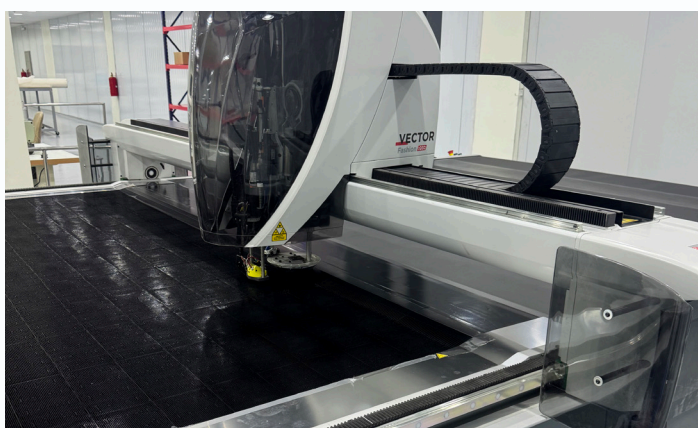

Automated systems for fabric spreading and cutting (Lectra, France).

Ultrasonic welding technology.

Sterile packaging lines.

Quality & Innovation

Certified CE for non-sterile products.
Compliance with EN 13795 standards.
Advanced R&D for new product lines.
Integration of automation to ensure consistent quality and reduce errors.

Vision 2030

SDMI contributes to Saudi Arabia's Vision 2030 by:

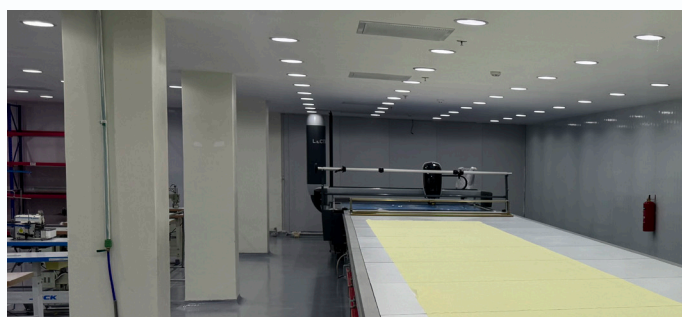

Reducing dependency on imported medical products.

Enhancing local manufacturing and self-sufficiency.

Supporting environmental sustainability through responsible practices.

Building a resilient healthcare industry for future generations.

Clients & Partners

We proudly serve:

Hospitals and medical centers across Saudi Arabia.

Regional healthcare providers in the Middle East.

Strategic partnerships with government initiatives to strengthen healthcare infrastructure.
